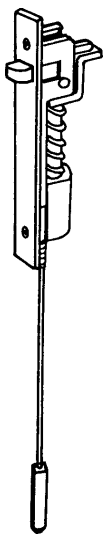
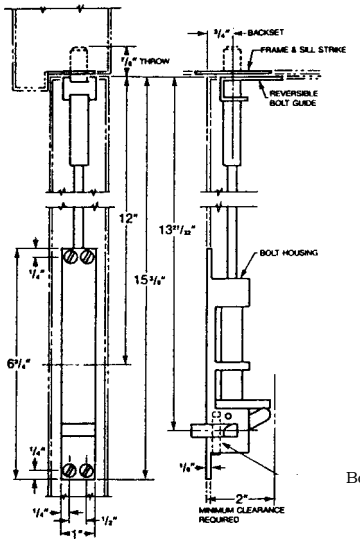
AUTOMATIC FLUSH BOLT - (FOR METAL DOORS)

GLYNN-JOHNSON





Bolts can accommodate both RH & LH doors by simply removing cam screw and reversing cam. Insert cam screw into opposite hole.

- Fits standard ANSI prep for metal doors.
- U.L. Listed for all metal fire doors up to 8'.
- Fully automatic, when the active door is opened, the bolt is retracted, which frees the inactive leaf for easy egress. Upon closing the active door, the bolt projects into the head frame to securely lock the inactive leaf.
- Effective throw of 3/4" and 2" vertical adjustment, without removing door from the frame, to accommodate unusual floor or head conditions.
- Override feature prevents damage to the bolt, door or frame should the strike and bolt head be misaligned.
